PROFESSIONAL EXPERIENCE

Bina Nusantara University - School of Computer Science (Bandung)

Feb 2026 - Present

- Engineered a robust automated data pipeline using Python and Selenium to efficiently extract, categorize, and process large-scale web data
- Spearheaded the end-to-end development of a scalable ERP system utilizing the Frappe Framework and ERPNext to streamline core business operations

PROJECTS

FinSight

October 2025

- A personal web application developed to learn UI/UX, responsive design, and full stack development process. Implemented JWT Authentication and simple CRUD backend.
- Tools used: React + Axios + Recharts + Express + MongoDB + Git/GitHub
- Link: <https://github.com/jelvinlonb/finSight>
- Web : <https://finsight-jb.vercel.app/>

Sneaker Store App

June 2025

- An application for a sneaker store built using Laravel MVC with basic CRUD operations. This was done in pair with my partner, and i was tasked with the basic CRUD operations on the web.
- Tools used: Laravel + Blade + Vite + MySQL + TailwindCSS + Git/GitHub
- Link: <https://github.com/jelvinlonb/Sneakers-Store>

F1 Shop

September 2025 - December 2025

- Developed a centralized marketplace for F1 enthusiasts, streamlining the shopping experience by aggregating official merchandise and unique creator goods into a single trusted destination. I was tasked with developing the backend of the project.
- Tools used: HTML, CSS, JavaScript, MongoDB, Node.js + Express API, Railway, Vercel.
- Link: <https://github.com/jelvinlonb/F1s>
- Web: <https://f1s-shop.vercel.app>

ADDITIONAL INFORMATION

- **Languages:** English (Proficient) , Indonesian (Native)
- **Programming Proficiency:** HTML/CSS, JavaScript
- **Database:** MySQL, MongoDB
- **Frameworks:** Laravel MVC, React.js, Express.js, Vite
- **Software:** VS Code, XAMPP, Ms. Office, Excel, Docker, Canva, Figma, Railway, Vercel
- **GitHub:** <https://github.com/jelvinlonb/>
